

Assalamu Alaikum Aqsa Parents,

Implemented by Mothers Club and supported by Aqsa administration and teachers, **another year of Junior Achievements was successfully completed at Aqsa.** Each student has been awarded with a certificate of achievement for their grade level and program. If your child did not receive his/her certificate, please do not hesitate to let us know.

Congratulations to our children who have completed the program. **The program introduces students to important economic concepts that will ultimately enhance their understanding of the world around them. JA's Kindergarten through grade 12 programs help young people use information, apply basic skills, think critically, and solve complex problems.**

Since your child has benefited from this influential program, **he/she will be eligible to apply for a scholarship/s offered by the program when they are in their senior year.** Masha'allah this year, one of our seniors has been awarded the highest amount of the JA scholarship, \$20,000. She was also offered to internship with them for three years during the summer with pay. Congratulations to our student, her parents, and to our school for this great accomplishment.

With the help of our dedicated volunteers, the students were taught valuable lessons with hands-on experiences, problem solving, skills development, decision making, and economic concepts.

Please call the school or email us at Aqsamothersclub@yahoo.com, if you have any questions

Jazakum Allahu Khairan to all who helped making this program a success.
