

Don't Let SUMMER LEARNING LOSS Happen to your Daughter!

Every Parent Should Attend this Workshop!

According to the Johns Hopkins University Center for Summer Learning:

◇ *All young people experience learning losses when they do not engage in educational activities during the summer.*

◇ *On average, students lose approximately 2.6 months of grade-level equivalency in mathematical computation skills over the summer months.*

◇ *Researchers estimate that children lose, on average, up to 2 months progress on reading skills over the summer months.*

Aqsa School is Proud to Present

Making the Most of this Summer: Continuing Academic and Spiritual Growth

Featuring: Mr.Habeeb Quadri

Harvard Staff Member, Author, Educational Consultant, and Community Leader

Wednesday, May 28th, 2014

2:30 PM - 3:30 PM

Aqsa School Multi Purpose Room

This Workshop will address the following:

- Ways to support your child so that they can retain and build on information learned this year
- Ideas to keep your child spiritually engaged during the blessed month of Ramadan
- Resources and Activities to support parents and students
